

100kW smart photovoltaic energy storage cabinet for unmanned aerial vehicle stations

Overview

With 100kW PCS and 215kWh of LiFePO₄ battery storage, it delivers robust, efficient, and versatile energy management. Request ROI analysis or technical demo today. Engineered for high-capacity commercial and industrial applications, this all-in-one outdoor solution. With its flagship product, the Smart BESS Cabinet CAO-100kW/215kWh/241kWh, ONESUN is redefining commercial and industrial energy storage solutions. The system integrates batteries, PCS. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. This solution integrates advanced BMS and EMS. This fully integrated 100kW/215kWh system combines high-density battery storage with intelligent power management in a single, factory-assembled unit - delivering unmatched performance and reliability for demanding commercial applications. This integrated outdoor cabinet features lithium iron phosphate (LFP) batteries, modular PCS, EMS, power distribution, fire protection, and.
