

17 series lithium battery pack protection 40a

Overview

D1004LI17SSP40A001 is a 17S 40A Li-ion BMS typically designed for protecting lithium batteries (Li-ion & LiFePO₄) from over charge, over discharge, over current, over temperature, short circuit and so on. We have smart and hardware bms for lifepo₄ and li-ion lithium battery and support to be customized. The whole system adopts concave convex front-end acquisition chip+ Bluetooth MCU scheme, and some parameters can. The JBD ZP20S007 V1. 2 is a compact and intelligent Battery Management System (BMS) built for 17S (17-series) lithium-ion (NMC 3. And all the protections apply to each string or each cell (if only 1P in parallel), once. • If products are not as described, returns are accepted and return shipping fee should be paid by buyer. Buyer should pay return shipping fee if return require is insisted on. OH17SA01 supports 7s-17s LFP NMC battery pack, and with 40A-120A continuous current for choose.
