

Belgian antwerp wind solar and storage integrated company

Overview

Storm is a renewable energy producer. Together with our team, we develop, build and operate sustainable energy projects across the country: from wind and solar parks to fast charging stations and battery storage. This is always done at the lowest possible social cost. Paris, May 15, 2023 – TotalEnergies has launched at its Antwerp refinery (Belgium), a battery farm project for energy storage with a power rating of 25 MW and capacity of 75 MWh, equivalent to the daily consumption of close to 10,000 households. A First Flagship Energy Storage Project in Belgium. The Antwerp refining and petrochemicals platform is our largest integrated complex in Europe. To meet growing global demand and address new market trends, we have upgraded and adapted the site to focus production on higher added-value products that meet the most stringent environmental standards.
