

Door-to-door sales of solar power

Overview

Door-to-door solar sales is a process where solar salespeople go door-to-door to promote and sell solar products and services. There's no doubt that digital marketing is and will always be a huge source of solar leads; however, D2D puts sales reps right in high-intent neighborhoods where many homeowners. How to sell solar door to door in 2026 — pitch scripts, commission ranges, FTC rules, and the kitchen-table close that wins after the ITC sunset. SEIA and Wood Mackenzie project a 19% residential market contraction as homeowners who were waiting on the credit either delay or drop out entirely. Agents selling solar energy systems go under a variety of names. Being informed can protect you from predatory tactics. Buying solar can save you money and reduce your environmental footprint, but only if you know what to look for — and what to look out for. But homeowners face a complicated — and sometimes intentionally misleading — process.
