

How to get commission from solar panel business

Applications

Overview

There are several common ways to pay commissioned solar salespeople. Payouts can be set up as a percentage of the overall contract price, based on a percentage of margin, constructed as a combination of. Setting up optimal solar salesperson compensation heavily depends on your business model. The most successful sales organizations model their compensation thoughtfully, based on. If you're looking to maximize your solar sales revenue, you need to focus on the quality of the people on your sales team. In our experience working with solar installers, while price is important, paying for your solar sales team to be trained correctly and to be educated goes a very long way. We recommend paying for at least their first several months on the job, so they can learn. You need to have sales software that will allow you to easily access data like the number of sales you have, the number of completed sales from set appointments, goal value of sale.
