

Huawei s solar module project in Manchester UK

Overview

This Huawei solar installation delivers a smart and efficient residential energy solution. It uses advanced components from Huawei's SUN and LUNA ranges. The system features 8 high-performance Perlight 425W panels mounted on a west-facing roof pitch. As a pioneer of zero-carbon quality living, Huawei FusionSolar has launched the "Optimizer + Inverter + ESS + Charger + Load + Grid + PVMS" one-fits-all residential smart PV solution with its profound accumulation of photovoltaic and storage technology and the perfect integration of. HUAWEI FusionSolar advocates green power generation and reduces carbon emissions. It builds a product ecosystem centered on solar inverters, charge controllers, and energy.
