

Ireland first solar

Overview

Ørsted has taken final investment decision (FID) on phase one of Garreenleen Solar Farm, which marks the company's first solar investment in Ireland. Across Ireland, solar farms are supporting farmers to reinvest in their land, diversify incomes, and strengthen biodiversity. Rooftop solar is helping households and businesses cut costs and emissions. Clean electricity is powering everyday life, from heating homes to cooking meals, charging. This is a list of solar farms in the Republic of Ireland. The list includes farms that have been proposed, are in development or construction phase, or have been completed and are operating and connected to the grid. ie/solar-farms-ireland ^ Kelly, Briain (30. When we launched our first Scale of Solar report in 2023, solar energy in Ireland was still emerging. The 65 MW solar project will be located in Cork, the second-largest city in. Dublin, 13 November 2025 – Ireland celebrated a landmark moment in its clean energy transition, with national solar capacity surpassing 2 GW for the first time.
