

Lithium battery energy storage cabinet for chemical plants 800mm deep

Overview

We presents its Energy Storage Cabinet specifically crafted for Lithium-Ion batteries, ensuring secure containment and charging. The BSI Kitemark is a registered certification mark owned and operated by BSI, and is one of the most recognised symbols of quality and safety for consumers and business procurement departments. We have had our cabinet certified and tested by independent. □ Fire-safe lithium battery storage – steel cabinet with fire-resistant, non-flammable materials, fire protection seals, and EN 1363-1 tested for 60+ minutes fire resistance. □ Early fire detection & containment – integrated smoke detector, warning alarm, and cold smoke-tight sealing to prevent. Protect your facility and your team with Securall's purpose-built Battery Charging Cabinets—engineered for the safe storage and charging of lithium-ion, lead-acid, and other rechargeable batteries. Securall understands the critical risks associated with modern energy storage.
