

Luxembourg solar panel system costs

Overview

A residential solar system in Luxembourg costs €8,000 to €22,000 for a 5 to 10 kWp installation before subsidies. All figures reflect current market conditions in Luxembourg. All prices are VAT-inclusive. If you're searching for "solar panel price Luxembourg 2026", it's rarely out of curiosity. The problem is that the prices you see online are all over the place. This guide covers everything: how they work, grants, self-consumption, ROI and. Price per kWp: between €1,400 and €2,300/kWp depending on complexity. Return on investment: 6 to 12 years (under 5 years with all cumulated grants according to some installers). Two offers may look similar, but hide major differences: installed capacity, solar panel quality, inverter choice, battery, procedures, prefinancing, deposit, final invoice and follow up after installation. Government subsidies through PRIME.
