

Solar container battery storage factory in Calcutta

Overview

The storage battery is expected to improve voltage profile, frequency management, responsiveness to integrate intermittent solar energy sources and overall power distribution. The newly inaugurated BESS is located at CESC's East Calcutta Sub-station near Kankurgachi . Kolkata Discom CESC and Exide, India's largest battery manufacturer have partnered on a grid connected 315 kWh battery energy storage systems (BESS) at low tension (LT) distribution system for better peak load management. The project is the first of its kind for West Bengal at this scale. We have also developed India's first Integrated Solar Roof system, integrating solar panels into the roof itself. With over a decade of experience in renewable energy, Ornate Solar has developed a Battery Energy Storage System that is proudly. This is the region's first standalone battery energy storage system (BESS) tender and is built on a Build-Own-Operate-Transfer (BOOT) model with CESC.
